

## Press release

### Great performance from a small packaging unit

PFERD is expanding the range of tools in the 10-piece packaging unit – particularly popular with retailers and in the professional trade

Small pack delivers great performance – new 10-piece packaging unit from PFERD

[pferd-trennscheiben-ve\_2019-de.jpg]

1.0-mm cut-off wheels cut very quickly and economically thanks to their narrow width. They enjoy great popularity, not least thanks to this. While industry primarily uses the conventional 25-piece packaging unit, the professional trade and assembly experts prefer the smaller 10-piece pack.

PFERD is responding to this demand and is expanding its range of 10-piece packaging units. With the 1.0-mm cut-off wheel PSF STEELOX in diameters of 115 and 125 mm, the specialist based in Marienheide now offers two additional wheels in the 10-piece packaging unit for work on surfaces and cutting materials.

The PSF STEELOX is equally suitable for work on steel or stainless steel (INOX), for example for cutting sheet metal and profiles as well as solid material and for creating apertures. It impresses both with its fast working and with its high cutting performance; it can also be used optimally on cordless angle grinders.

The PSF STEELOX also stands out with respect to its **PFERDVALUE** properties – it cuts with low levels of vibration, noise and dust; it works in an effort-saving manner, with a good level of control over the cutting process and provides a high degree of comfort.

### **About the company**

August Rüggeberg GmbH & Co. KG – PFERD Tools ([www.pferd.com](http://www.pferd.com)) is among the leading companies that manufacture tools for work on surfaces and metal cutting. With a heritage that dates back more than 200 years, the family-run business, based in Marienheide, manufactures its products across eight different production facilities and its current portfolio includes over 8,500 tools. With its 1,950 employees in 25 subsidiaries across the world, the company is able to secure proximity to its global customer base, which is ideal for providing first-class consultation and deliveries.
